TACTILINGO PARENTAL CONSENT FORM

Dear Parent(s),

Our class would like to use Tactilingo, an online learning platform used by world language teachers to assign online language games to their students. Before using this tool, we wanted to make you aware of regulations that apply to operators of websites that require parental consent when they collect information on children under a certain age, as described in the attached document.

Schools are permitted to consent to the collection of personal information on behalf of parents of students, thereby eliminating the need for individual parental consent given directly to the web site operator. Before doing so, the school is providing you with this notice and opportunity to opt out.

Please take a moment to look at the website we will be using: www.tactilingo.com , as well as the attached information sheet. We will have your student use his or her district-provided email account for this.

After reviewing this site, if you would NOT like your child to have their own Tactilingo account, please contact me in writing before **(Date)**. If I do not hear from you otherwise, we will create a Tactilingo account for your student on **(Date)**.

Sincerely,
